**5. Consider supplemental appropriation for additional track repairs and increased scope of wrought iron fencing**

James Villarreal, Assistant Director Sports Complex, requested approval for additional funding for asphalt repairs on the running track. He explained patching and levelling the track would provide a temporary fix and potentially causing further problems in the near future. Preparation of the asphalt as recommended will increase the durability and longevity of the track improvements.

In addition, Mr. Villarreal requested approval to increase the scope of the wrought iron fencing project due to recent increase in materials and supply-chain issues. The scope of the work would extend to include the west side of the Broadhead Road service entrance.

Mr. David McSpadden asked if the asphalt repair will have a warranty and Mr. Villarreal noted it would.

President Morton expressed support to make the appropriate repairs to prevent additional costs in the future.

## Memorandum

To: Waxahachie Community Development Corporation  
From: Laurie Mosley, Director – CVB  
Thru: Michael Scott, City Manager  
Date: May 4, 2022  
Re: Authorize Use of Convention Visitors Bureau FY22 Contingency Funds for Total Solar Eclipse Event 2024

---

**Item Description:** Discuss and act on authorizing the use of the \$10,000 Contingency Fund in the FY22 CVB budget for the purchase of solar eclipse glasses.

**Item Summary:** In 2017, the CVB was approached by Stuart Stephenson, a Waxahachie community leader, in regards to our plans to service and host thousands of potential visitors that will be converging on our community and region the first weekend of April 2024. Waxahachie will be in the path of the Total Solar Eclipse taking place on Monday, April 8, 2024.

Mr. Stephenson has first-hand experience with the popularity of a total solar eclipse event as he and his son traveled across the Mid-West in 2017 for the "Eclipse Across America" events that took place.

Solar eclipse glasses have been identified as one of most important items needed to safely view the eclipse event for 2024. Just in the past few months, the price of the glasses has increased and will continue to do so significantly as the event gets closer. Some manufacturers are already sold out. Therefore, the committee feels that it would be best to order the glasses now and store them in the CVB's storage area at the Waxahachie Civic Center in preparation for 2024.

Staff would purchase approximately 20,000 pairs of glasses. The glasses would be distributed to hotels for guests during the event and also Waxahachie ISD campuses for students to use. Staff would also have some available to use at Railyard Park during the solar eclipse event.

**Fiscal Impact:** The purchase of the solar eclipse glasses would deplete the FY22 Contingency Fund, account 202-610-57800. However, doing so would help secure the glasses at a lower cost and ensure we procure the product for the 2024 event.
